SUMMARY

Experienced Product Owner delivering B2B and B2C digital products for GCC markets, focused on structured Product Ownership, Agile delivery, and high-quality backlog refinement. Strong in stakeholder management, reducing ambiguity, and turning complex requirements into development-ready outcomes aligned with business goals and vision.

WORK EXPERIENCE

Product Owner | Beetleware | Cairo | Hybrid Feb 2026 – Present

- Owned **5+** Mobile and Web **B2B** and **B2C** products across enterprise SaaS, HRTech, Healthcare, and gamified EdTech domains, primarily serving **GCC governmental and enterprise clients**, managing **500+** user stories, **100+** features, and **50+** epics on Azure DevOps.
- Led Roadmapping, BRDs, PRDs, FRDs, and AI-powered UX analysis and design, improving backlog readiness **from ~40% to 95%+** and reducing rework by **40%**.
- Reduced requirement ambiguity by **60%** and improved sprint planning accuracy by **30%** using structured Product Ownership practices aligned with **PSPO II™** and Agentic AI tools.
- Applied **AI-powered UX design and QA** fundamentals, generating high-fidelity screens, improving UX flows, validating test cases, tracking defects, and aligning cross-functionally with UX, QA, and engineering.
- Acted as a **Scrum Master**, supporting sprint planning, reviews, backlog tracking, blocker follow-up, and Kanban-based capacity/utilization tracking, aligning **30+** engineers and **20+** stakeholders while reducing blockers by **20%**.

EDUCATION

B.Sc. in Management Information Systems Oct 2021 - June 2025

Faculty of Business, English Section, Alexandria University

- Graduated: June 2025
- CGPA: **3.735** (Excellent with Honors - Ranked **9th** Overall in my Class)
